EXCELLENT BACING AT JEROME PARK-TWO GOOD It was refreshing and delightful at Jerome Park resterday to see that sturdy and swift colt, Emperor of Norfolk, scatter all opposition like chaff in the Spurten Tuyvel Stakes. The best of the black jockeys, Jease Murphy, rode him at 113 1 2 pounds, having taken much pains to reduce himself in order to ride this race. Mr. Haggin wisely concluded to withw Aurelia, as there was no probability that this y with 120 pounds in the saddle could get first, and or third place. So the field which the Emore met was confined to Climax, Patrocles, Lady Princose and Ovid, all of whom found supporters. Murphy made up his mind to have no lingering or ty and sent the son of Norfolk briskly along from the first stride. Lady Primose and Patrocles kept pace with him for half a mile, and at the head of estretch Patrocles shot into the lead. But, the homostretch Patrocies shot into the lead. But, running smoothly and with enormous power, the Emperor had Patrocles and Lady Primrose soundly beaten before the last furlong was reached. The pand of the race was beyond the regular judges! Itand and the intelligent and discriminating California colt got the idea that the race was over beaten before the last furlong was reached. The pad of the race was beyond the regular judges thand and the intelligent and discriminating California colt got the idea that the race was over then and there, and did not wish to run a yard more.

Mutuals—Little Minnie straight paid \$14 05, place \$8 70; Froile place (field ticket) \$8 70.

Ariel ran away three miles, and stopped so tired that the judges excused him. There was a long delay at the post, and the use was given to an uneven start, Little Minnie and Froile having the best of it. They made all his characteristic Lamasney rushes, and Murphy was compelled to shake up the imperial raceborse and flourish his whip. With this mild reminder for him to be up and doing, the autocratic doit strode away and won easily, Climax geiting second place, and Patroeles third, Lada, which with the running the favorite winning by a length, Frolic second, a neck before Cholula, third. Miss Mouse was shut out at the bluff, and sGlenspray was in difficulties all the way. No bid for the winner. and won easily, Climax getting second place, and Patroeles third, Lady Primroso seemed tied up and showed none of her usual speed. The friends of Ovid were confident that she would get second place, but she was never in the race at all, doddering along modestly in the background. The Emperor is the lion of the three-year-olds and few of the owners of older horses of high class care to try conclusions with him. He is certainly a cell of wast speed and

clear. He must meet The Bard to settle that point.
It was a favorable day for favorites, the majority of the seven races falling to them. Mr. Belmont was present to see his commendable colt Prince Reyal make a sickly show of his only antagonist, Brown Duke, in the first race. Prince Royal ran like a prince of the true blood. He will start in the Belmont Stakes co-morrow, and was run out for a mile and a half for Some watches made his time 2:401-2; some others made it 2:40. The Dwyers' colt Sir Dixon covered the distance yesterday in a trial in 2:41. far apart at present, and they will probably run an incandescent and filuminating sort of an electric race to-morrow, one worth some minutes of careful med-

with him. He is certainly a colt of vast speed and

dous ability in weight carrying. But that he

progress of affairs, Joseph won the second race neatly, with Mr. Withers's Minority colt in second place. But Joseph will not succeed in leading his brethren out of Egypt when he meets the Minority colt at Monmouth Park. Mr. Withers's coit needs more time, more work, more cats and less coughing. He will yet put Joseph into a pit and sell him to a caravan of Egyptians. The old horse Le Logos wore down his opponents in the third race, and won with a trifle up his car.

After the Emperor of Norfolk's superb display of strength and speed, Mr. Galway's Belvidere, now a handicap colt of much merit, made Mr. Withers's Fitz-roy look like a skulking sneak. And yet Fitzroy isn't the worst colt in the world.

Mr. Caldwell labored long and wrestled ruggedly with some recalcitrant jockeys in the selling race, and when he had got through with them some gory heads were dripping under the axe of the executioner. For stance, that rapid little lad Church was suspefor the rest of the Jerome Park meeting. The favo-rite, Little Minnie, finally got off in front and remained

there.

In the steeplechase two riders fell, but they were only stunned. John Henry won easily, Harry Mann second. Mr. Morgan's mare Mystic seems to need a little more work. She will see a better day.

To-day will contain no races nor ramors of races at Jerome Park. Everybody needs a rest. To-morrow the sport will be resumed with the Belmont Stakes and other fascinating contests.

Bess and Aurelia were withdrawn. The race was run over the Titan course, the finish being beyond the judges' stand. Murphy drew half a pound overweight. The Emperor was more fractious at the post than ever before, ng a short delay. Mr. Caldwell sent them off almost in line. Murphy shook up the favorite instantly, and the great three-year-old shot to the front with quick and eping stride. Passing the club-house he was half a th before Lady Primrose, Patrocles third, close up, lengths before Ovid, Climax trailing. The pace was hot. Clouds of dust followed the horses around the bluff and hid them from view until they were beyond the halfmile post. Lady Primrose was the first to emerge from the yellow screen. The Emperor was at her throat-latch, with Patrocles only a neck, behind. Coming into the each the favorite appeared to lose ground for an instant, Patrocles taking the lead from Lady Primrose, instant, Patrocles taking the lead from Lady Printose, who, having enough, beat a hasty retreat. Climax came through with a rush, challenging the leaders as they squared away for home. Patrocles quickly succumbed and the Emperor faitered. Murphy drew his whip and gave the latter a smart blow on the fank. He rullied in reply, and with a mighty bound extended himself for the first time this year. There was no living with him after that. As they passed the grand stand he was lead. g by half a length. Climax strove very hard, but he uild never get up again and the Emperor won. Climax at Patrocles two lengths for the place. The competition is figured on 5 points to s win-ner, 3 points to second in each event, and 1 point to third, there being ten events with a total of 90 points. A gold championship medal went to the first man, a silver medal to the second and a bronze medal to the third.

William Driscoil, of No. 917 Second-ave., and John McKay, of No. 221-2 South-st. met at 11 o'clock Wednesday night at Second-ave, and Thirty-ninth-st, and renewed an old quarrel. From words they came to blows, and finally McKay drew a revolver and fired three shots at Driscoll. One of the shots passed through his thumb and the other two struck him on the head, but neither of the shots seem to have penetrated the skull. Dris-cell was taken to Bellevue Hospital and McKay was held yesterday in the Yorkville Court to await the injured

A SURPRISE IN ALICE WOODHALL'S CASE.
George B. Newell, representing the estate of John Gill, who has been endeavoring to obtain possession of the property taken from Alice Woodhall by English detectives, when she was arrested in England, prior to her extradition to this country to answer a charge of forgery, spring a surprise upon the opposing counsel in the case in the superior Court before Justice O'Gorman yosterday. He preduced an order obtained ex parte from Judge Dugro on June 1, appointing George F. Stonebridge, jr., receiver of the property of Alice and her sister Harriet Woodhall, under the judgment obtained against them. This had been under the judgment obtained against them. This had been granted without notice to the opposite side on the ground that they were not within the jurisdiction of the court. Justice O'Gorman held that this order sectiled the matter, but he fixed the bond to be given by the receiver at \$6,000. The sureties will qualify to-day and the property will be turned over to the receiver.

GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS. The bulls are sgain encouraged by repows of dry weather and ravages of insects, which have again imperilled the wheat crop that has gone through so many (speculative) vicusaitudes. Against them are the apathy (speculative) vicinaturing off in the export demand and discouraging cables. The results of these conflicting influences was narrow changes with a slight tipping of the scales in favor of holders. Cash wheat was held well in hand and prices were advanced 1-4-2-2 cent, but the sales for export reached small figures. The transactions in options fell below 4,000,000 bushels and the market was options fell below 4,000,000 business and an advance of 1.923.4 cent, and further gains followed on erop reports (averatle to the bulls. A sharp drop of 7.98) 1.4 cent followed, but a steadier tone prevailed near the close and

Last quotations were unchanged for July at 92 1-2 and December at 96 1-4, but up 1-2 for June at 91 5-8 and 1-8 for August at 98 1-4 and September at 93 5-8 cents. Corn on the spot was a shade better, with only 32,000 to 100 t bushels taken by shippers. Big receipts at the West broke prices of options 7-8-21 1-3 cent after an early rise of 1-4-21-2 cent in sympathy with wheat, and except for of 1-4-21-2 cent in sympathy with wheat, and except for the later months final figures were about at the bottom quotations. Not losses were scored of 5-8 for June at 80 3-8, 3-4 for July at 60 1-2, 5-48 for August at 61 1-4, and 1-2 for the next three months at 61 3-4 cents. Cash cats were firm, but the options eased of 1-2-23-8 cent, closing at 37 3-4 for July, 33 7-8 for August and 33 cents for Soutember. There was no husbase to read land and for September. There was no business in spot lard, and the options fell 2#3 points as follows: June 28 83, July 88 85, August \$8 88, September \$8 91, October \$8 89.

The receipts of grain and flour reported yesterday at New-York, Philiadelphia, Baltimore and Boston were as follows: Wheat, 452,009 bushels; corn, 70,701 bushels; gats, 208,730 bushels; total grain, 707,440 bushels; flour. oats, 268,730 bushels; total grain, 797,440 bushels; flour, 83,460 packages. At Milwaukee and St. Louis the arrivals were: Wheat, 64,417 bushels; corn, 474,088 bushels; cats, 208,230 bushels; total grain, 746,718 bushels; flour, 23,275 barrels. THE TRADE IN CHICAGO.

Chicago, June 7 (Special).—Prices of wheat opened to-day at a slight advance on better cables, on the tempo-rarily strong feeling on the other products on the floor and on a rather influential buying. The advance was encouraged by higher prices at all the surrounding markets. The July option started at 80 cents, and went to 80 1-2286 5-8 cents. August was at almost the same price. The fig.

ures which showed only 57,000 bushels cleared from all three ports were the first disappointment. This made it easy for the sellers of "calls" to stop the savance at 88 1-2888 5-8 cents, the "call price." When the advance easy for the sellers of "calls" to stop the advance as 88 1-2688 5-8 cents, the "call price." When the advance was stopped the bear influences began to accumulate. The July option sold during the seasion between 86 1-2686 5-8 and 85 3-8, closing not far from the bottom at 85 1-2. August closed at the same price; December at 86 1-2. August closed at the same price; December at 86 1-2. Corn was week, and at one moment even a little panicky. The arrivals in the increing, 457 cars, were over 100 under the estimates, and in the lot there were only 207 cars of No. 2. This started prices up. July opened at 55 and got to 55 1-4 on this influence. The first set-back was on a sudden break of 1 1-2 cents in July at New-York, and the news that the Chicago clique were trying to sell there. The estimates for Friday, 780 cars, dispelled the hope started in the morning of a let-up in the arrivala. The market suddenly went down from 55 1-4 for July to 53 3-4 cents. After the price broke the clique was credited with buying. It is getting to be the impression that the price broke the clique was credited with buying. It is getting to be the impression that the bull party in corn has strung its operations out too long, and that by transferring its interest from May to July it made a mistake.

Huga were 5 cents higher at the yards, and products, especially lard, were higher abroad. The provision pit, being without much incident itself, sympathized closely with corn.
